

WHAT CAN WE DO TO SAVE DEMOCRACY?

Democracy Is Facing a Defining Moment

Around the world — and here at home — authoritarian movements are weakening democratic institutions, undermining the rule of law, and threatening fundamental rights.

They rely on **fear, division, and retribution** to silence opposition and erode public trust.

Democracy will not sustain itself. It depends on informed, engaged communities.

In this moment, preserving democracy requires more than resistance—it demands action. Join your friends and neighbors at the Venice Community Center for a conference on building a democracy that not only withstands authoritarianism but thrives.

If you are attending the No Kings rally on March 28...
